

# Here's to Fall

## RUTGERS SASHP NEWSLETTER

Monday, September 27, 2021

Dear SAS Honors Program Students,

The warm weather begins to fade as the cool autumn air sweeps through every acre of the Rutgers campus... Happy fall everyone! Okay, technically the first day of fall was last Wednesday, but I wanted to dedicate a full Monday issue to my second favorite season. There has always been something magical about the stretch of time from late September to late November. Whether that be the Halloween season, the emphasis on family, or the break from unbearable New Brunswick summers, fall is a special time. Throw on a long sleeve shirt and lounge in the breeze as more students wearing flannels than you ever expect to see walk by.

Welcome in the season by fall-ing in love with these events! Satisfy Honors Colloquium requirements early by attending the first **Honors Colloquium Movie Night** of the semester. Serious about a career in medicine? Receive invaluable advice by RSVP-ing for the **In-Person Chat with Dr. Dicker**. Spend quality time with your mentor or mentee and make some awesome tie-dye shirts at the Peer Mentor Program-run **Ride of Dye Event**.

Warm Regards,  
Justin Confalone

## Events

### Honors Movie Night: Justin Chon's "Gook"

Fulfill Honors Colloquium requirements early by attending the first **Honors Movie Night** of the semester, **Justin Chon's Gook**. "Gook" is used as a derogatory term for people of Asian descent, however, the film, centered around two Korean-American brothers who run a shoe shop in LA county, takes this and spins it in a really unique way. This event takes place **Fri, Oct 1 at 7:30 pm EST in the McCormick Lounge**. TW: Strong language and violence.

### In-Person Chat with Dr. Dicker

You read that right, **Dr. Paul Dicker** is offering an **IN-PERSON** chat with students looking to enter into the medical field! After graduating from Rutgers, Dr. Dicker attended NYU Medical School and completed residency at the NYU/Bellevue Medical Center. Today, he is a board member of Lifeline Medical Associations. Asking Dr. Dicker about his trials and tribulations will be incredibly beneficial for students pursuing a career in medicine. This chat takes place **Tues, Oct 12 at 3:30 pm EST and fills up VERY quickly** (only 10 spots available fast). RSVP [here](#).

### Ride or Dye Sponsored by the Peer Mentor Program

Mentor or mentee looking to hang out with your counterpart? Get to know each other over some awesome tie-dye at the **Peer Mentor Program-run Ride or Dye Event**. Shirts and dyes will be provided and all that you need to bring is your creativity and sense of adventure. This event takes place next **Fri, Oct 8 at 4 pm EST**. RSVP [here](#) for the location
